Why Attend

IUMS 2022 will bring together medical and non-medical microbiologists from different disciplines around the theme “Microbiological adaptation in times of ecological disturbance and disruption”.

Attend keynote lectures, bridging sessions, and workshops organized by the three IUMS divisions: Bacteriology and Applied Microbiology, Virology, and Mycology and Eukaryotic Microbiology.

Hear from Global Experts

This is your ideal opportunity to hear from the greatest experts in the field. Profit from up-to-date research data, high-quality scientific content, and diverse session types.

Leave Your Footprint

The prospects of microbiology lay in your hands! Play an important part in moving science forward. Present your innovative discoveries and share your scientific conclusions on a world-class platform.

Congress Topics – IUMS Divisions

The Union is composed of three Divisions, each concerned with a major microbiological science. The Divisions are administratively responsible for Committees, Commissions and Federations (hereafter referred to as COMCOFs) each concerned with a particular aspect of microbiology

IUMS consists of three Divisions. Each of them have an Executive Board and they organize their own congresses. BAM and Mycology organize their congresses jointly, while Virology has its own congress.

The aims of the Division of Mycology and Eukaryotic Microbiology are to further the discipline of eukaryotic microbiology, incl. mycology and all branches of research related to it: establish and maintain contact among eukaryote microbiologists by sponsoring international congresses, symposia, conferences and colloquia; distribute information; encourage research and training. The Division has links and a strong collaboration with the International Mycological association (IMA). The aims of the Division of Bacteriology and

Applied Microbiology are to further bacteriology and related sciences throughout the world in research, education and services its aims are to further the discipline of virology and all branches of science related to it; encourage contact among virologists; foster interchange of information through sponsorship of international congresses and symposia.

IUMS COMCOF's - Committees, Commissions and Federations

In all division Ad hoc committees, commissions and Federations on various disciplines are active.

Virology

ICTV - International Committee on Taxonomy of Viruses

Bacteriology & Applied Microbiology Division (BAM)

ICFMH - International Committee on Food Microbiology & Hygiene

ICSP -International Committee on Systematics of Prokaryotes

ICMSF - International Commission of Microbiological
Specifications for Food

**Mycology and Eukaryotic Microbiology Division
(MEM)**

ICFM - International Commission on Food Mycology. For website see www.foodmycology.org. Chairperson: Ludwig Niessen. eMail: niessen@wzw.tum.de. Secretary: Sue Lin Leong. Treasurer: Emilia Rico

ICIF - International Commission on Indoor Fungi. For website see www.indoormold.org. Contact Person: Ulf Thrane. eMail: ult@sbi.aau.dk

ICPA - International Commission on Penicillium & Aspergillus.
For website see www.aspergilluspenicillium.org. Chairperson:
Robert A Samson. eMail: r.samson@westerdijinstitute.nl.
Secretary: Giancarlo Perrone

ICTF - International Commission on Taxonomy of Fungi. website
see www.fungaltaxonomy.org. Chairperson: Conrad Schoch. eMail:
Secretary: Andrew Miller

ICY -International Commission on Yeasts. For the ICY website click [here](#). For the ICY Newsletter click [here](#). Chairperson: Hiroshi Takagi hiro@bs.naist.jp.
