

IUMS Abstracts in a Journal

[The Antonie van Leeuwenhoek Journal, International Journal of General and Molecular Microbiology](#) will publish a Special Issue on the theme of IUMS2022 '*Microbiological adaptation in times of ecological disturbance and disruption*', containing papers selected from the presentations at IUMS 2022.

It is the official journal of the [Royal Dutch Society for Microbiology \(KNVM\)](#) and publishes papers on fundamental and applied aspects of microbiology, with a particular emphasis on the natural world. Topics covered range from molecular biology and genetics to ecology and marine microbiology, as well microbial pathogenesis and bioinformatics. These can be in applied contexts such as agriculture, food microbiology and assay development amongst others.

The Special Issue will be coordinated by a group of Guest Editors nominated by the congress division chairs and organizing committees.

Please note only accepted papers of registered presenting authors will be included in the selection.

You can still submit your research paper for participation by May 18, 2022 through the [abstract submission system](#).
