

Why Submit an Abstract?

Being part of **IUMS 2022 – The Hybrid Edition** program is a great way to push forward your career.

Get recognition for your work, constructive feedback, and new ideas. Share your findings with the microbiological community and make a name for yourself in the field.

Check out the video below for more inspiration!

Don't miss your chance to:

Expand your professional network

Presenting your abstract at **IUMS 2022 – The Hybrid Edition** will allow people to know that you are doing research in Bacteriology and Applied Microbiology, Virology, Mycology and Eukaryotic Microbiology, and will connect you to future collaborators. Discuss your findings with experts from around the world and meet with colleagues who are interested in your topic.

Gain exposure for your work

Meet international colleagues interested in your results and get ready to answer questions! Your research will gain wide exposure, you will receive valuable feedback and ideas, and your name will be recognized in the program.

Improve your skills

Develop your presentation and communication skills, an essential competence for advancing your career. The more you present your work, the better you become at explaining why your results are important and how they can impact science.

Find your place in the program

Submission allows you to be creative in sharing your presentation in any of the formats available for the Meeting. You can also choose among various abstract topics. The floor is yours.

Contribute to the future

Sharing your research contributes to our goal of revolutionizing the future of Bacteriology and Applied Microbiology, Virology, Mycology and Eukaryotic Microbiology. The research in the field of IUMS can impact the microbiological adaptation in times of ecological disturbance and disruption. Make a difference![Abstract SubmissionAbstract Topics](#)
